DONOR: Please Read And Sign Donor Statement

I have read and understand the information provided to me as educational material, including MAKING YOUR BLOOD DONATION SAFE. I have answered all the questions accurately and honestly to the best of my knowledge. I agree not to donate blood if I suspect or know that I have AIDS or have had a positive test for HIV/AIDS. I understand that it is a felony in the state of California for a person with HIV or AIDS to knowingly donate blood for transfusions. I agree to have my blood tested for infectious diseases and understand that positive test results may be reported to the local Public Health Department. Unforeseen circumstances may prevent infectious disease testing from being performed. I understand the risks involved in donating blood and additional risks of apheresis donation. I release Mediware from all liablity. I have had the opportunity to have all my questions answered. I voluntarily donate my blood/platelets to Mediware for use as they deem advisable.

Answer Code(s)	**5**	i am typing all this in to test that i can enter a 1000 characters to make sure i can add 1000 into the table and see the question in donor response to make sure it all is appearing and not showing the this will take a long time to type in 1000 characters over and over and over and over and over and over and over and over again and again and again and again Apart from counting words and characters, our online editor can help you to improve word choice and writing style, and, optionally, help you to detect grammar mistakes and plagiarism. To check word count, simply place your cursor into the text box above and start typing. You'll see the number of characters and words increase or decrease as you type, delete, and edit them. You can also copy and paste text from another program over into the online editor above. The Auto-Save feature will make sure you won't lose any changes while editing, even if you leave the site and come back later. Tip: Bookmark this page now. Heat is on by ABBREVIATED!!!!			Yes
